TERMS AND CONDITIONS

Any order implies the acceptance of Mambo Factory, Lda. – brands Mambo Unlimited Ideas, Utu and Theia – terms and conditions as described below.

PRICES

1. The current price list replaces previous versions;
2. Each price indicated refers to one unit; Prices for upholstered pieces with fabric are calculated over net quantity of fabric needed; for small orders minimum fabric quantities may apply;
3. Prices indicated do not include VAT;
4. Mambo Factory standard packaging is included in the price. Upon request, special packaging may be developed under extra cost;
5. Prices are ex-works, transport and insurance costs are not included;

TRANSPORT POLICY

1. Mambo Factory may arrange the transport of the goods and will conduct its' best efforts so that it is carried out as swiftly as possible, however Mambo Factory cannot guarantee transport times as the transport will be assured by a forwarder external to our company, and cannot be held responsible for any transport delay occurrence, nor for any resulting damage;
2. When transport is arranged by Mambo Factory with its usual forwarder, transport will be exclusively door to door, meaning that the transporter will unload the goods at the client's address street door, at street level (will not enter the building or climb stairs). Access to heavy duty truck must be assured or transport cost surcharges will be charged to the client.
3. For transports with our forwarder, correct delivery address should be indicated upon the confirmation of the order by submitting the Shipment Details Form, which will be provided by your Account Manager. Changes to the address after goods have been shipped will have service fee of 50€ (for documentation issuing and transport coordination), that will be charged to the client. In case of change a new form with updated information must be submitted by e-mail again.
4. Delivery Access is the client's responsibility. It is the client's responsibility to check that all goods have free and easy access to its final destination.
5. Client may choose to organise the transport of the ordered goods. In this case, Mambo Factory, Lda's responsibility is limited to the preparation of the goods to be collected and ends at the moment of goods pick up at our warehouse. Mambo Factory will be free of any charges or responsibility over events that might occur during transportation. In this case all management of the transport should be held by the client.
6. Condition of goods must be verified immediately upon delivery. Any claim must be submitted with photographic evidence of the damages by email to info@mambofactory.pt, within 24h after goods have been received . If Mambo Factory has arranged the transport and if the goods or the packages show any damage, the description of such damage must be written on the transporter delivery note - "UNDER RESERVE / NOT VERIFIED - DRIVER REFUSED TO WAIT". This note on the delivery document is critical, without it it will not be possible to activate insurance coverage and the claim will be therefore refused. Any transportation of the goods from delivery address to a second location will forfeit any transportation damage claim. Mambo Factory will not be liable for any damages that might occur from pick up, handling and/ or installation by individuals acting on behalf of the client /receiver.
7. After the verification of the damage and its causes, and if there is evidence that the responsible is the transporter, damaged pieces will be either replaced or repaired, as per decision of our technical department.
8. Packing is tested for rigorous motion and transportation but is not guaranteed to protect Products from conditions over which Mambo Factory has no control.

WARRANTY POLICY

1. Mambo Factory provides a limited warranty of 1 year for contract use and 2 years for residential use of its products, to the original purchaser, against defects in material and workmanship.
This warranty does not cover second purchasers of the products nor distressed products by display use or display samples. Colour and finishing variations are natural in woods and leathers and are not defects but characteristics; slight colour variations on fabrics and lacquered metal are also possible and are not defects. These situations do not apply to warranty. There may be small differences between colours and sizes (vary from 0,5-3cm) which are not defects but features of our handmade processes.
2. This warranty applies under conditions of normal use and excludes damage caused by misuse, or those resulting from fading caused by exposure to excess light (pieces should be protected of direct sunlight), soiling, improper cleaning, abnormal use or accident.
3. Defective goods must be returned to our warehouse for analysis and should be packed effectively. Any costs for packing and shipping are not covered under this warranty. Any damage resulting from negligent packing or transport back to our warehouse will not be covered by this warranty.
4. Mambo Factory products are handmade one by one, therefore there may be some slight differences from piece to piece, that are not defects but normal features of the products.
5. To obtain proper service under this warranty, the original purchase receipt must be presented.

This guarantee does not apply to:

- Failure to follow product care instructions as advised by Mambo Factory;
- Damage caused by a carrier other than Mambo Factory's Forwarder;
- Normal wear and tear or acts or omissions of parties other than Mambo Factory (including user modification);
- Customers Own Material or other third party materials applied to Products;
- Products not installed following instructions or damaged by careless removal of packaging;
- Dramatic temperature variations or exposure to unusual conditions;

ADDITIONAL SERVICES

1. Mambo Factory may provide the following services for a special fee: Certificate of Origin, Authentication of Invoices, SASO Certificates, Inspections, Storage and Demurrage, Change of Details on Final Invoice. Please contact our staff regarding prices.

ORDERS AND PAYMENT CONDITIONS

1. Product prices are ex-works, the transport cost may be added to the invoice upon request and will be at client's cost;
2. For each order, the corresponding proforma invoice will be sent to the client through e-mail and confirmation must be given by the client in writing by e-mail;

3. Payment terms are 50% deposit with order confirmation and balance before shipping. Production starts after downpayment is received in our account. The balance payment is requested approximately two (2) weeks before the approximate date predicted for dispatch. Payments should be made through bank transfer and copy of payment confirmation documents should be sent through e-mail to info@mambofactory.pt referring your proforma invoice number;
4. Mambo Factory reserves the right to apply a daily warehouse fee of 2% the total of the proforma if outstanding proforma balance is not paid and/or shipping arrangements have not been made within ten (10) business days following the notification for balance payment;
5. All pieces remain Mambo Factory property until full payment is received;
6. The production time is generally 8 to 9 weeks. There may be variations on large quantities orders and during busy periods, in which case Mambo Factory will notify the client in response to the request or consult.

ESTIMATED LEAD TIMES

We will provide you with an estimated delivery week upon placement of your order. This week is an indication only; actual week of production completion may differ due to circumstances out of our control.

CANCELLATION OF ORDERS BY MAMBO FACTORY

Mambo Factory reserves the right to cancel any order at any time for whatever reason, in which case all funds paid by the Client will be returned.

DELAYED ORDERS

1. Mambo Factory is not responsible for the delay in production time if the client fails to submit the confirmation (receipt) of the transfer.
2. Lead time for orders with COM/COL products ONLY starts once the fabric arrives at our office and is properly identified.
3. All client fabrics must be identified with the proper COM/COL Form that is sent with the proforma. Mambo Factory is not responsible for delays in production or any fabric misuse if the fabric is sent without identification by the client.

DELAY/ FORCE MAJEURE

Mambo Factory shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of any governmental authority or of the Client, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations or due to any cause beyond its reasonable control. If any such event occurs, Mambo Factory may extend delivery date by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

CUSTOMER'S OWN MATERIAL / LEATHER (COM / COL)

1. COM/COL orders will ONLY start production after the fabrics have been received and identified in our warehouse. After reception and identification of fabrics, the lead time will be 6/8 weeks.
2. Fabric quantity requirements are based on a standard width of 1,40cm / 55" for plain fabrics. If the customer fabric has a different width or contains a pattern, Mambo Factory must be notified in order to inform the customer of the exact required fabric quantity. If the pattern requires matching, Mambo Factory needs to know the repeat dimensions for a calculation of additional yardage/meters required and/or additional charge for matching.
3. The customer is responsible to advise Mambo Factory in writing of any specific requirements to special alignment, placement of or detail, front or back of the COM/COL, otherwise COM/COL will be applied according to the upholsterer guidelines based on a standard model. The customer is responsible for the fabric transport costs and all export fees to Mambo Factory's warehouse. Mambo Factory will refuse all fabrics with charges for the receiver of the fabric. Mambo Factory is not responsible for orders with customer's fabric when the fabric features put into question the production quality of the product.
4. Mambo Factory will not be responsible when the customer does not choose the appropriate fabric for the future use of the product. A filled copy of the COM/COL form must be submitted together with the fabric/leather to Mambo Factory's warehouse, to avoid delays caused by lack of identification. Please ask your sales advisor to provide you with the COM/COL Form.
5. Mambo Factory is not responsible for performance of any fabric and does not warrant COM/COL fabrics. Mambo Factory is not responsible for defective COM/COL, and all COM/COL are accepted to be first quality goods. Mambo Factory is not responsible for upholstery tailoring variances that result from the application of a particular fabric or leather.

LIMITATIONS OF LIABILITY

Mambo Factory, its contractors and subcontractors or suppliers of any tier shall not be liable to Client for any special, indirect, incidental or consequential damages arising from Products or from a breach of this Agreement.

Client's remedies set forth herein are exclusive and the liability of Mambo Factory with respect to the breach of this Agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product(s) or part on which such liability is based.

To the extent that the laws of any jurisdiction do not permit limitations or exclusions of implied warranties, incidental damages and consequential damages, the above limitations may not apply. In such jurisdictions, the above limitations shall be enforced to the greatest extent permitted by applicable law.

TECHNICAL INFORMATION & CARE INSTRUCTIONS

METALS

Lacquered finishes (steel)

Lacquered metal components in our products are powder coated and present an even, shiny or semi shiny and smooth finish. Powder coating is a safe, dry finishing process that uses finely ground particles of pigment and resin to create a protective finish. We choose this finish technique because it is low in toxicity and has lowflammability. To increase hardness and resistance against scratches, the powder coating is melted in a high temperature oven and then cooled into a durable film.

Polished or satin finishes (brass, copper or nickel)

Solid or plated brass, copper or nickel components in our products assume one of two possible finishing: polished or satin. In both cases, a finishing layer is applied to coat the material evenly and assure the protection of its properties such as colour and shine. This layer prevents direct contact with air and the oxidation that results from it. The metals are powder coated with a transparent varnish and present an even and smooth finish. Powder coating is a safe, dry finishing process that uses finely ground particles of pigment and resin to create a protective finish. We choose this finish technique because it is low in toxicity and has lowflammability. To increase hardness and resistance against scratches, the powder coating is melted in a high temperature oven and then cooled into a durable film.

Stainless Steel (polished, satin or with brass colour top varnish)

Characterised by its high resistance to dents and scratches, to light and to corrosion caused by chemical or atmospheric agents, stainless steel is therefore a particular type of steel. Polished finish is obtained by polishing the surface, first with impregnated sisal disks and then with cotton disks, to get a glossy finish. The satin finish is obtained by treating the steel surface with abrasive materials, which gives the surface an opaque, somewhat rough appearance. The brass colour finish is obtained by powder coating the polished stainless steel with a layer or varnish that is then melted and cooled resulting in a even surface.

Metals Care: To clean use a mild/neutral soap and water and dry it immediately with a clean soft cloth.

Use any common neutral detergent, provided it does not contain neither chlorine nor chlorine derivatives, such as bleach and muriatic acid, ammonia and vinegar.

Do not use any abrasive materials that would unavoidably scratch the surface.

Do not use stain removers, diluent, acetone, trichloroethylene, vinegar, ammonia, bleach, limescale remover, as well as liquids containing such substances and do not use any abrasive powder detergents, capable of damaging the aesthetic and surface finish look.

Avoid shocks and etchings by using blunt items capable of scratching the surface, subsequently removing its protective top layer.

Avoid any deposit and prolonged retention of liquids to prevent long-lasting stains and marks from forming. Any liquids must be removed as soon as possible;

Do not drag any object on the metal surfaces and do not insist to clean a single area (it may alter its color and texture).

Do not put the metal surfaces in contact with high temperature objects as that may cause deformations and yellowing.

WOOD

All of the wood we use comes from renewable forests.

Natural finish (beech, walnut, oak or iron wood)

All wood used in our collection is subjected to a process of priming to close the pores. After it is sanded to reach a smooth, even surface. Last finishing layer is applied to protect the surface.

Care: regularly clean the surface with a soft cloth and specific cleaning products for wood. Do not use abrasive materials.

Stained finish (beech, walnut, oak)

Stained finish (beech, walnut, oak)

First of all, the wood is put into a stain process. Then, it is sanded carefully to reach a flat surface without imperfections. Last finishing layer that protects the surface is applied.

Care: regularly clean the surface with a soft cloth and specific cleaning products for wood. Do not use abrasive materials.

Lacquered finishes (MDF)

MDF is subjected to priming process and is sanded to get a homogeneous surface and correct any imperfections. After this, the material is lacquered in successive layers until getting a flat and homogeneous surface.

Care: regularly clean the surface with a soft cloth and specific cleaning products for wood. Do not use abrasive materials.

Woven cane

Cane work, also called rattan, is a vine that grows in the tropical virgin forests of Indonesia. It is considered an especially robust material. Filaments are peeled off the outer shell and used for cane work on chairs. Cane has many ecological advantages: it has the quality and resistance of nature, and the plants quickly grow back.

Our woven cane is not treated with whiteners or ammonia to unify the colour of the fibres. Variations in the colour of the cane yarn, small cane laments or interruptions in the yarn are a guarantee that it is a natural cane.

Care: Natural woven cane is highly sensitive to humidity or the lack of it.

In the presence of high levels of humidity in the setting, the fibres may prove less taut. If this is the case, simply dehumidify the space where the piece is placed or move them to a dryer environment to restore the initial tension. If you need to remove dirt or dust from the cane, we recommend you use a dry anti-static cloth; in the case of tougher stains, moisten the cloth first, then leave the cane to dry naturally. Make sure no moist or water residues remain behind the cane.

The cane work should be dampened on the rough underside on a regular basis in order to preserve its elasticity – this is especially important in dry or air-conditioned rooms. Sustained dryness turns the natural material more prone to cracking. If filaments come off, they can be reattached with glue.

Strong concentrated stress to the cane work should be avoided as to avoid breakage.

Never pour water directly onto the cane and never use sources of heat to dry woven cane and never place products with cane near direct sources of heat (replaces, stoves, etc.), as the excess heat could break the cane fibres. Direct exposure to sources of heat or excess humidity will cause the cane to break.

CERAMIC TILES

Our tiles (decorative panels, table tops and wall covering) are handmade. Clay is pressed into the mould to acquire the desired shape and the excess clay is carefully removed using a sharp knife. Once moulded the pieces are subjected to a slow, natural air drying period, crucial to ensure resistance and after that, the drying process is completed at a drying room. After this, the pieces go through firing at 1050°C. They are then glazed and go through finish firing, this time at a temperature between 980° and 1000°C, which makes them waterproof and shiny, except for the matte finishes, in which the surface resulting is matte.

Care: regularly clean the surface with a soft cloth and glass cleaning liquid. Avoid the use of abrasive materials that can alter or scratch the surface.

GLASS

Laminated Glass (digitally printed)

Laminated glass for our table tops is made of two glass layers that are joined together by an interlayer of polyvinyl. The digital print is protected between the two glass layers. In case of

TECHNICAL INFORMATION & CARE INSTRUCTIONS

breaking, the interlayer assures that the glass holds together when shattered and increases its' resistance to impact, hence laminated glass is also called "security glass".

Care: avoid the use of abrasive materials that can alter or scratch the surface. Use soft cloths and glass cleaning liquid to regularly clean the glass surface. Use coasters to avoid scratches on glass table tops.

UPHOLSTERIES

Leather

Different types of leathers are included in our range, which differ by the animal origin, its' anatomy, the various treatment processes used for tanning and finishing and the quality chosen.

Care: dust should be removed frequently in order to allow natural breathing of leather. To do so, it is recommended to use a soft, dry cloth. Do not use bristles that may damage the surface. Prolonged direct exposure to sunlight or direct heat sources should be avoided in order to preserve colour and natural humidity. It is essential to keep leather hydrated and to keep its' elasticity it is recommended to apply regularly (every 6 months) special creams for furs and leathers, with special focus on areas subjected to heavier use, such as seats, arms and the top of the back rest. Although removing stains is very difficult, sometimes good results can be obtained by applying soapy water (neutral soap) with a soft cloth right away. It must be completely rinsed and immediately dried and even so it is probable that some traces will be visible. Do not ever use abrasive substances such as acetone, alcohol, detergents or any other type.

Use specific anti-greasy cleansing products at least twice a year, passing it on all the surface for a correct maintenance of the leather.

Fabric

We provide a wide variety of fabrics of different natures. Please ask us for the maintenance and cleaning sheet for the particular fabrics needed.

Care: To care for cover fabrics, Hoover dust and lint regularly using an upholstery nozzle with very light motions and check other specific indications for each particular fabric with us.

Tailored items - Pillows and plaids

Our leather pillows and plaids are tailored with three types of fibres along with leather, depending on the model: cotton, linen or nubuck.

Care: pillows must be shaped and aired frequently, by shaking them so that the inner material is uniformly distributed for better preservation. We recommend that pillow placement is changed frequently to balance the use among different pillows. Plaids must be aired frequently. Jounce and spread the plaid to allow natural fur to return to natural direction from time to time.

MARBLES

Marbles and Terrazzo

The marbles and Terrazzo we use in our products are hand selected from the best, most consistent sources for durability and beauty. All our marble surfaces get a protective treatment before they are sent to the customer. Stone is a natural product and as such it has variations in tone, colour, granularity and pattern. Because of this, a sample may not exactly match a slab or finished product. The samples should give a general idea of the colour, finish and pattern of the stone you choose. All stones have veining and crystallizations that can appear to be cracks or pits but are actually a natural property of the stone. Stone forms over thousands if not millions of years. These slow processes lead to many variations in structure, colour and pattern. Natural stone products differ in composition, color, pattern and texture even among pieces from the same source. This is usually considered a benefit, lending itself to one-of-a-kind designs and distinctive, dramatic applications.

This kind of material is more durable than many artificial products, often lasting for decades with very little maintenance.

Care: Normal cleaning is done by wiping the surface with a damp soft cloth, then wipe dry. Regular wiping should be done with a clean cloth and clean water; microfibre or suede cloths are good options. Marble is a limestone and therefore does not tolerate acidic liquid such as vinegar, lemon juice or wine due to the risk of staining. Stains such as these may be impossible to remove. In case of spilling something acidic on marble surfaces, immediately wash away. Do not use scouring pads, acidic detergents or abrasive cleaners as this may damage the surface. Do not place hot items directly on the marble or Terrazzo surface, and wipe up any spills immediately after they occur, particularly liquids likely to stain or etch into the surface. Marble and Terrazzo can withstand heat for short periods, but do not tolerate extremely high temperatures. Direct contact with very hot surfaces can mark or damage the marble. This will show as a spot and cracks can also appear. To avoid marking or scratching the surface, avoid abrasive objects touching the marble or terrazzo surface.

Upholstery COM/COL Form - Use one form per product / fabric reference

Please fill this form directly in your computer, save it and e-mail it to your sales contact with pictures of the fabrics in attachment and Proforma Number written in the subject.

Orders with clients' own fabric will only start production after the fabrics have been received and identified in our warehouse. After reception and identification of fabrics, the lead time will be 6/8 weeks.
UNIDENTIFIED FABRICS WILL NOT BE ACCEPTED AND THEREFORE RETURNED BACK TO SENDER.

BEFORE SHIPPING YOUR FABRICS, PLEASE FOLLOW THESE INSTRUCTIONS - MANDATORY

- All fabrics must be shipped to the company MAMBO FACTORY and no other name
- Ship to Address is: RUA DE MARVILA 49C, 1950-197 LISBOA, PORTUGAL
- The fabrics must be identified with the proforma number
- Send us the fabric invoice so we can present it to portuguese customs so the fabric can be released; all costum taxes are paid by client/ExWork conditions
- MAMBO FACTORY must appear on the fabric invoice as "SHIP TO" only, not as "BILL TO" or "SOLD TO"
- It must be express that the merchandise only comes to Portugal to be incorporated into an article and will return - Please always write in the invoice **"THERE IS NO INTRODUCTION TO CONSUMPTION"**
- Our company has the right to refuse acceptance of fabric if the shipment of such material ignores the requirements written above

IMPORTANT NOTICE:

1) Required lenghts for all our upholstery products are clearly stated in our Retail Price List and if any questions about lenghts arise these questions should be clarified by a sales manager before shipping the fabric to us.

2) The client is responsible for shipping the fabric/leather in the required lenght in a maximum of 2 weeks after confirmation and payment of order.

In the absence of application instructions, Mambo will apply the fabric in the manner that it sees fit and cannot be held responsible for tailoring or application objections after upholstering.

3) Unless otherwise instructed on the purchase order or by email to your sales contact, excess COM/COL materials will be recycled at the discretion of Mambo after one month of the original product ship date.

4) The COM/COL approval solely pertains to the application of the material onto the specified Mambo seating product. Mambo's approval or acceptance does not constitute any responsibility or warranty to the overall appearance, durability, flammability, defects, dye lot variations or colorfastness of the COM/COL. It is the customer's responsibility to ensure the COM meets the upholstery requirements.

5) COM material must be shipped in continuous lenght. Mambo cannot accept individual pieces of the same fabric to comply with the required lenght.

SHIPMENT FORM EUROPE

MANDATORY DELIVERY PROCEDMENTS

1 - Condition of goods must be verified upon arrival. If the deliverer does not wait for the inspection of goods, this should also be clearly written in the delivery note as **"Under Reserve – not verified. Driver did not wait for verification"**.

This note on the delivery document is critical, without this procedure the insurance company will not pay for the damaged goods.

2 - Any claim must be submitted with photographic evidence of the damages by email to **andre@mambofactory.pt**, within 24h after goods have been received. To go forward with a claim, ask your account manager for the **Shipping Claims Procedure**. The package of goods must also be kept for claim purposes.

3 - **Changes in delivery address are only allowed until the balance payment is done.** In exceptional cases we may allow changes to the address after goods have been shipped which will imply a surcharge of 25€ that will be charged to the client. In case of change a new form with new information must be submitted by e-mail to your Account Manager again, otherwise the changes will not be considered.
