

## ***FCB announces new Partners***

FCB Sociedade de Advogados is pleased to announce some structural changes in its team, with the promotion of two Partners to Equity Partners, a new Industry Partner and three Senior Associates becoming Partners.

The structural changes in FCB's team include the promotion to Equity Partners of João Robles and João Couceiro, previously Industry Partners and coordinators of the Angola Desk and Mozambique Desk, respectively. Inês Albuquerque e Castro, the Partner head of the Employment, Benefits and Pensions Department, is now an Industry Partner.

João Osório de Castro, Gonçalo Mexia and Bruno Arez Martins are the Senior Associates who have become Partners for the first time, a clear recognition of the work these professionals have been developing in FCB for over a decade in the Corporate and M&A and the Tax areas, respectively, as well as in the Angola and Mozambique Desks.

These changes reflect FCB's policy of valuating and rewarding the contribution and the dedication of our lawyers, also clearly showing the Firm's motivation to grow with our professionals.

On the verge of completing our 30<sup>th</sup> anniversary, our team is now comprised of seventeen Partners, in a universe of more than 60 lawyers.
