materials

travertine marble and milano terracotta ceramic tiles

// as pictured

top - travertine marble or marble options

base - terracotta manganês milano tiles and nude lacquered mdf

Our Milano collection is crafted using Portuguese handmade tiles, each tile is made with love in Portugal, using traditional techniques resulting in truly unique pieces. Each piece can vary in size up to 0.5mm, colors might vary slightly, and spacing between tiles may not always be the same. This is not a defect but a characteristics of a handmade product.

One of the key characteristics of natural travertine is the holes and pits gracing the surface and inside of the stone. These random holes present in natural travertine are considered normal characteristics of this stone and therefore not defects.
