Come to the Autumn Festival at the Serralves Foundation!

With a multidisciplinary programme over two days, we invite families and the general public to celebrate the arrival of this season.

In Serralves Park, particularly in the Farm area, we'll be promoting autumnal diversity, the native breeds that live here, seasonal products, the art of know-how and raising awareness of an environmentally responsible and transformative culture.

By taking part in workshops, field trips, theatre and music shows, performances and other activities, we will highlight biodiversity and the landscape and revive different arts and crafts.

In the context of a magnificent cultural and natural heritage, various artistic expressions will be presented, combining contemporaneity and tradition with innovative approaches.

It will be a weekend to visit and experience Serralves Park with family and friends, in the year that marks its centenary. Memories that will last forever!

Access is free and takes place through the gates at Avenida Marechal Gomes da Costa and Rua Bartolomeu Velho, 141.

The programme is subject to unforeseen changes.

The letters next to the activities refer to the locations identified on the map.

MUSIC

SAT 4:15 PM

LAVOISIER

Location: Prado
Duration: 1h

Lavoisier is composed of Roberto Afonso and Patrícia Relvas. It was born out of the need to create a dialogue, where musical expression is elevated to its most sensitive potential. Their time in Berlin between 2009 and 2013 gave them a new outlook and, with the distance came the inevitable "saudade".

After conceptually consolidating the project in the anthropophagy adopted by the Brazilian Tropicalists in the 1970s, the first step towards its approach to traditional Portuguese music began in the musical recollection work carried out by Michel Giacometti and Fernando Lopes Graça. It was in this spirit that Lavoisier's journey started, towards a greater perception of the musical essence, leading to his most recent work: "Aí".

We imagine a space, a field of experiences. Characters inhabit it. Sometimes dreamers, investigators and flyers... other times, angry, they trip over the structure and fall off the other side, mess up their hairstyle, but always in love...

There's no sleeping here... it's a successive cycle of experimentation!

CRIATURA is an eclectic group of musicians, artists and people who are dedicated to revisiting the popular memory of the territory they inhabit and who, from there, set out to create music and art that is born from other ways of looking at, feeling and being the tradition. After releasing their first album "Aurora" in 2016, they released "BEM BONDA" in 2021, an album that focuses on breaking away from cultural patterns already saturated and out of touch with reality.
