Theia Tiles is a Portuguese company of handmade tiles that started in 2017, Our production is based in Portugal and in its historical traditional techniques of production, where we have skilled craftsmen that carefully bring to life every single piece that we create.

Our tiles are made of earthenware, an extraordinary material, made of just clay and water, simple and eco-friendly materials. Theia's tiles are handmade products, where the earthenware is pressed, fired and hand painted. It is an artisanal production that results in a truly unique product.

We pay careful attention to each step of manufacturing, in a close relation between our design and production teams. The quality is closely controlled to assure the best finishing, resistance and durability. Our main objective while designing and producing our tiles is assuring we offer top quality products. That has been crucial to our increasingly growing recognition.

milano by STUDIOPEPE.

Introducing, Milano, our latest collection, a product of the second collaboration between Theia Tiles and Studiopepe. Drawing inspiration from the vibrant city of Milan and its diverse neighborhoods, this collection is a unique amalgamation of contemporary design and traditional craftsmanship.

mar di by STUDIOPEPE.

Mar Di is a collection designers by Studiopepe for Theia tiles, inspired by the motion of the sea, its waves, with a broader meaning to the theme of travel and exploration. A formal investigation that culminates with four models in which the surfaces interact differently with the light that hits them.

oblique

Oblique is inspired by the elegance of Art Deco; formed by a number of diagonal surfaces, this tile creates a *trompe l'oeil* effect. Sturdy and discreet, its bold lines create an elegant tridimensionality that can shine anywhere.

prisma

Movement is essential in this tile, with crisp lines, strong shapes and solid shadows coming together in a rhythmic tridimensionality. Prisma is a polygonal tile that creates a kaleidoscopic effect.

tua

The Tua collection is composed by two tiles: Tua Plain, which is flat surfaced, and Tua Stripes, equal in shape but composed by slightly asymmetric lines that give a strong sense of movement. Both tiles play with volumetry, allowing the same tile to unfold in an array of shapes.

gaudí

Laced blankets, crochet throws and knitted mantles are at the heart of Gaudí. Handmade is the focal point to the Gaudí tile, where soft lines create a weft for an intricate lace to evolve. The result is a tile which is antique in its look, but contemporary in its use.

duo

Duality is essential in this tile. One flat surface and another tilted, Duo plays with the idea of opposites. Large and strongly built, it is ideal for large areas; it can be used in more than one color to accentuate its ambivalent traces, or in a solid color to let its contours shine.
