## About the brand

A continuously growing collection of Portuguese handmade tiles, offering endless possibilities for meaningful and contemporary surfaces.

Our tiles are designed both by our studio and in collaboration with renowned designers. Each tile is crafted out of earthenware, a simple and eco-friendly material. Theia's tiles are handmade products, where the earthenware is pressed, fired and painted, using ancient techniques resulting in a truly unique product.

# milano by STUDIOPEPE.

Introducing, Milano, our latest collection, a product of the second collaboration between Theia Tiles and Studiopepe.

Drawing inspiration from the vibrant city of Milan and its diverse neighborhoods, this collection is a unique amalgamation of contemporary design and traditional craftsmanship.

Comprising three individual tiles, each named after a specific Milanese neighborhood, the collection presents a visual exploration of the city's distinctive character. Whether used in combination for a seamless blend or individually to create focal points, these tiles redefine interior aesthetics.

In a significant debut, this marks our first-ever collection in both terracotta and faience. The launch introduces a diverse palette of colors, injecting a sense of freshness and innovation into our repertoire.

# mar di with STUDIOPEPE.

Mar Di is a collection designed by Studiopepe for Theia tiles, inspired by the motion of the sea, its waves, with a broader meaning to the theme of travel and exploration. A formal investigation that culminates with four models in which the surfaces interact differently with the light that hits them. Developed in 2021.
